DISCLAIMERS AND REFERENCES

ADDITIONAL REFERENCE MATERIALS

This presentation should be read in conjunction with materials from Envela Corporation ("Envela" or the "Company"), including news releases, website content, and Securities and Exchange Commission ("SEC") filings, including our most recent annual and quarterly financial statements and related management discussion and analysis ("MD&A") (collectively "Disclosure Documents"), for full details of the information referenced throughout this presentation. These documents are available on the Company's website at www.envela.com or as applicable on the SEC's Electronic Data Gathering, Analysis, and Retrieval System ("EDGAR") at www.sec.gov.

This presentation is for general information purposes only and shall not constitute an offer, solicitation, or sale in any state or jurisdiction, and incorporates the Company's good-faith estimates. This presentation includes industry and market data. We obtained this information from publicly available and other third-party sources. While the Company believes the information was prepared by reputable sources, the Company did not independently verify the information or the underlying assumptions. No representation or warranty is made as to the accuracy, completeness, or reasonableness of such information. The Company disclaims any responsibility or liability whatsoever in respect of this information. Readers are cautioned to review the underlying information referenced herein, as applicable.

FORWARD-LOOKING STATEMENTS AND ADDITIONAL INFORMATION

This presentation includes statements that may constitute "forward-looking" statements, including statements regarding acquisitions, financial outlook, and the potential future success of business lines and strategies. These statements are made under the safe harbor provisions of the Private Securities Litigation Reform Act of 1995. Forward-looking statements can generally be identified by the use of forward-looking terminology, such as "may," "will," "should," "could," "can," "would," "believe," "anticipate," "project," "plan," "expect," "estimate," "goal," "seek," "ensure," "potential," "opportunity," "intend," "predict," "committed," "likely," "continue," "strive," "aim," "scheduled," "focused on," "long-term," "future," "over time," "ongoing," "uncertain," "moving forward," "subject to," or similar words. Forward-looking statements inherently involve risks and uncertainties that could cause actual results to differ materially from the forward-looking statements. Factors that would cause or contribute to such differences include, but are not limited to, market conditions and other risks detailed in the Company's periodic report filings with the SEC. By making these statements, the Company undertakes no obligation to update these statements for revisions or changes after the date of this release except as required by law.

THIRD-PARTY NAMES AND TRADEMARKS

All third-party product and company names are trademarks or registered trademarks of the respective third-party holders. Our use of such trademarks in our presentation does not imply an endorsement by or affiliation with such third parties.

CURRENCY

All figures presented are in U.S. dollars ("\$").

NON-UNITED STATES ("U.S.") GENERALLY ACCEPTED ACCOUNTING PRINCIPLES ("GAAP") FINANCIAL MEASURES

This presentation includes certain non-U.S. GAAP financial measures and presentational disclosures, which have no standardized meaning under U.S. GAAP and may not be comparable to similar measures used by other issuers. These non-U.S. GAAP measures should not be considered a substitute for, nor superior to, financial results and measures determined or calculated in accordance with U.S. GAAP. When evaluated in conjunction with U.S. GAAP financial measures, the Company believes that these non-U.S. GAAP measures add meaningful insight into our financial position, results of operations, liquidity, and ability to meet financial obligations. Included herein are the definitions and reconciliations of our non-U.S. GAAP measures to the most comparable U.S. GAAP measures.

These non-U.S. GAAP measures include Adjusted EBITDA, Adjusted EBITDAR, Net Cash, Debt to Adjusted EBITDA Leverage Ratio, Net Debt to Adjusted EBITDA Leverage Ratio, Adjusted Debt to Adjusted EBITDAR Leverage Ratio, Adjusted Net Debt to Adjusted EBITDAR Leverage Ratio, and Free Cash Flow. Details regarding the definitions of these non-U.S. GAAP measures may be found in the glossary of this presentation, which we encourage you to read in its entirety.

Management considers Adjusted EBITDA to be a key performance measure to assess our overall operating performance. Management further considers Adjusted EBITDAR to be a key performance measure to assess our overall operating performance, excluding the impact of variability in leasing methods and capital structures. Management considers Net Cash to be helpful in understanding the Company's liquidity. Management considers the Debt to Adjusted EBITDA Leverage Ratio and Net Debt to Adjusted EBITDA Leverage Ratio to be helpful in understanding the Company's ability to service Debt Obligations, excluding and including the impact of Total Cash available to service such obligations. Management considers Adjusted Debt to Adjusted EBITDAR Leverage Ratio and Adjusted Net Debt to Adjusted EBITDAR Leverage Ratio to be helpful in understanding the Company's ability to service debt and operating lease obligations, excluding and including the impact of Total Cash available to service such obligations. Management considers Free Cash Flow to be helpful for understanding the amount of cash flow the company can utilize to meet its financing needs.

KEY PERFORMANCE MEASURES

In addition to non-U.S. GAAP financial measures, management utilizes certain performance metrics to assess its operations. A key performance metric that is calculated consistently across our reportable segments is the Inventory Turnover Ratio. As a purveyor of recommerce assets and recycling-grade base and precious metals, our ability to acquire inventory with appropriate margin, turn over our inventory, and redeploy sale proceeds is critical to our success. Appropriate inventory turns also reduce our exposure to changing consumer preferences and commodity market volatility.

DISCLAIMER

Information provided in this presentation is summarized and may not contain all available material information. Accordingly, readers are cautioned to review the Company's disclosures in full.
